Respected Sir

My attention was immediately drawn to your advertisement in Mashriq Newspaper in which you state you are looking for an expert IT programmer. The profile you have outlined fits me very well.

I have completed my BS (Computer Science) from FAST (National University of Computer and Emerging Sciences). During my studies I have created many projects on frontend and backend programming which I have mentioned in my CV. As you are looking for KPK based programmer. I have KPK domicile and I am resident of Peshawar. In order to make good use of my acquired knowledge and skills, I would like to work for you in the position of IT programmer.

I would describe myself as punctual and cooperative. I must put these characteristics to use within your organization .

I would like to further explain my motivation for the position of IT programmer during a personal meeting . You can reach me either via 03343008037 or by email javairiahman11@gmail.com.

Thank you for your consideration. I will be waiting for your response.

Regards
